

ProV™ REPLACEMENT DOUBLE HUNG WINDOWS | DETAILS/OPTIONS/SPECIFICATIONS

EXTERIOR FINISHES

Available in two standard colors: white and sandtone.

Colors have been reproduced as accurately as possible. See your Vetter dealer for samples.

HARDWARE FINISHES

All hardware is color-coordinated in white or sandtone to match the unit. Concealed cam-action sash lock enhances aesthetics, security and weathertightness. Two locks are standard on all units 2' 8" (or R.O. of 2' 8") and wider.

ALUMINUM GRILLES AND SIMULATED V-GROOVE GLASS

Select 5/8" flat or 3/4" profiled aluminum Grilles In Airspace in colonial or custom patterns. Available in white or sandtone to match the unit.

Transform ordinary glass into a work of art, add the appearance of authentic cut glass with Vetter's unique Simulated V-groove system. Available in traditional colonial or prairie patterns.

ALUMINUM GRILLE

SIMULATED V-GROOVE

GLASS OPTIONS

3/4" warm edge insulated glass standard.

EasyCare™ Low-E² insulated glass. The glass that resists dirt and residue. It dries faster with less spotting and streaking and stays clean longer. Along with the thermal benefits of Low-E² glass.

HiPro4™ Low-E² high-performance glass. High-performance argon-filled insulated glass keeps homes warmer in winter and cooler in summer.

SunPLUS4™ Low-E² high-performance glass. Like sunscreen for windows, SunPLUS4™ prevents damaging UV rays from fading interior furnishings, keeps homes cooler and reduces air conditioning loads.

EASycARE GLASS

Other glass options include argon filled airspace, bronze or gray tinted glass, obscure, tempered, sound control, and high-altitude glass.
