**HOW TO ORDER A PART:**

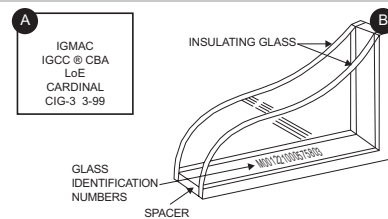

Identify the part using the exploded views and indexes. Reference the part in the Replacement Parts/Accessories Section beginning on page 2, using the number from the index.

**When ordering replacement parts, unit must be viewed from the exterior.**

**GLASS IDENTIFICATION CODE:**

The glass code number references the date of manufacture, which is helpful in identifying the product.

**When ordering warranty replacement glass, sash or panels, it is necessary to specify the glass identification code.** Markings are stamped on one of the four sides of the spacer channel which separates the two panes of glass. (Refer to the illustration at right)

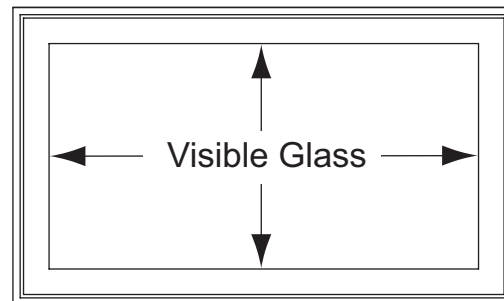

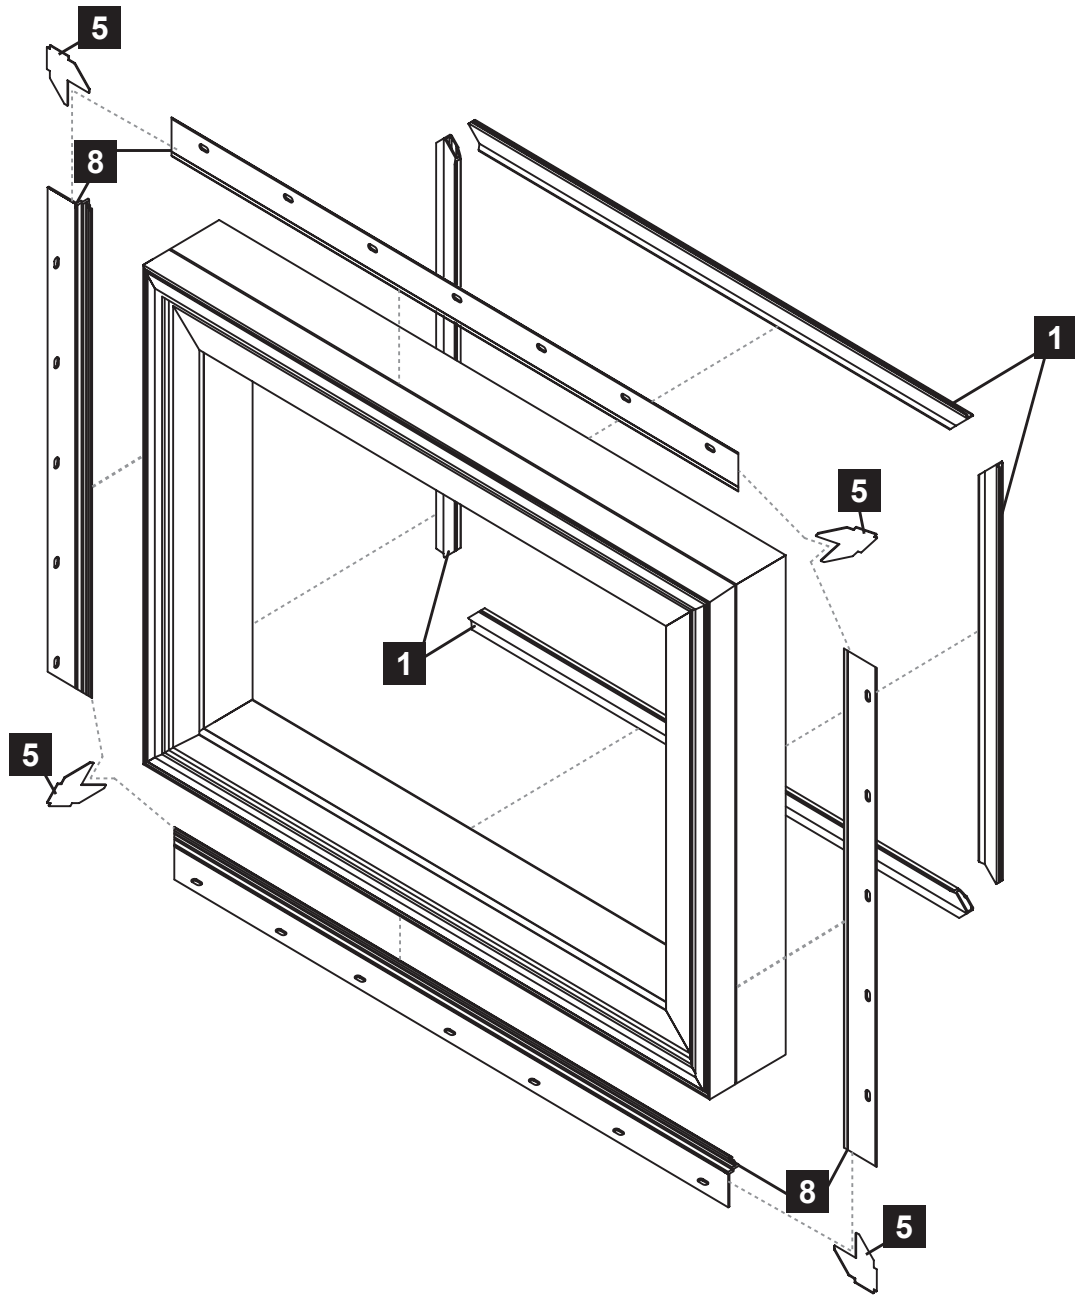

Markings are etched in the glass (A) or are printed/stamped on one of the four sides of the spacer channel which separates the two panes of glass (B).

**MEASURING VISIBLE GLASS:**

Typically, a part can be ordered by specifying catalog size or visible glass. The visible glass dimensions can be determined by measuring the width and the height of the exposed glass on the sash from inside the home. (Refer to arrows on the illustration at right)

**Measurements within + or - 1/4" will be rounded to the nearest standard size as given in the tables on the Standard Catalog Size Charts. Visible glass dimensions that are greater or less than 5/16" of a standard size means it is a custom size window.**
